DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1-8 and 89-104 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-8 and 89-104: these claims fail to recite limitation (s) to accomplish the objective set forth in the preamble. For example claim 1 is directed to “a method of conducting a business-to-business online auction for ...between a buyer and a plurality of potential sellers..”. However, the claimed invention(s) fails to accomplish or complete the process of auction of the products or materials as stated in the preamble. The claimed inventions are more appropriately limited to controlling closing timing of a multiple lot auction.

The applicant is required to either (a) amend the preamble to more closing reflect the claimed inventive steps or (b) amend the claim so the objective set forth in the preamble is incorporated in the claimed invention.

Art Unit: 2765

Appropriate correction(s) are required.

The above analysis is exemplary only as applied to claim 1. Similar corrections are also required for independent claims 7, 89, 95 and 97.

[Examiner's Note: the correction (of the preamble AND the claim limitations) would also distinguish the claims of subject application from other related applications and would be consistent with the title of the invention (Suggestion: "METHOD AND SYSTEM FOR CONTROLLING CLOSING TIMES OF ELECTRONIC AUCTIONS INVOLVING MULTIPLE LOTS "].

Dependent claims inherit same weakness as independent claims indicated above.
